FIRESIDE CHAT

The Fireside Chat is held on the first and third Tuesday of the month. They are held at 7:00 p.m. It will be a Webex virtual meeting at:

<https://richardlroberts.my.webex.com/meet/rlobert>

The format is open and will be without an agenda or focus. It will be a great opportunity for both new and experienced hams to ask questions and share experiences. Please join us!

SEMARC BOARD MEETING

Our next meeting for the board is May 14th. We plan to have a virtual meeting. Chuck Hanson will send out an email to all members the day before with instructions on how to join in on the meeting.

REGULAR MEMBER MEETING

Our next regular member meeting is May 28th. No program has been planned at this time.

[Cont. on page 3](#)

Pennsylvania Amateur Radio Operators

Pennsylvania Senate Bill 37 Will Ban Mobile Amateur Radio Use

https://www.reddit.com/r/amateurradio/comments/1cdvgfn/pennsylvania_amateur_radio_operators_sb_37_will/

If this passes will it be the start of legislation in other states?

NOTICE: 146.985 Repeater

146.985 Repeater is out of service for repair and users should switch to the 147.18 South with 74.4 tone or 147.18 north with 100 tone **till further notice**. Our Wednesday will be held there.

Dick NØUC

~ 146.985 Update ~ Getting Closer

The repeater has been relocated to FS3 (Cottage Grove Fire Station #3) but not installed waiting for paperwork from the city. When spring arrives, snow melts and paperwork catches up with verbal permission, we will install the new repeater antenna.

This will allow us to turn the 146.985 back on for use.

Once on we will plot the new coverage area hopefully returning handheld usability to our group.

Dick NØUC

South East Metro Amateur Radio Club
 Dick Roberts, NØUC
 1655 - 68th Street West
 Inver Grove Heights, MN 55077-2222

MEMBER MEETING
PROGRAM SURVEY

The Board is always looking for program ideas for the member meetings. What would you like to see for programs this year? Please send your ideas to **Dick Roberts** n0uc@comcast.net and he will bring your ideas to the Board meeting.

ARES REPORT

Just a reminder that our ARES repeater frequencies are 147.180, PL 74.4 in Newport, or PL 100 in Forest Lake.

INFORMAL CW
ROUND-TABLE NET

Every Wednesday evening at 1900 hours on 28.110 MHz

WEDNESDAY NIGHT 2M NET

Our club holds a 2-meter net every Wednesday at 8:00 p.m. It is an informal, but controlled, net on the 146.985 repeater. We are in the need for several alternate Net Control Stations who can fill in when one of the scheduled NCS is not available.

If you are interested, please contact:

Dick Roberts at n0uc@comcast.net

THE DIGITAL CORNER

Digital Net follows SEMARC net on Wed pm.

Go to www.w1hkj.com for software & help.

Fldigi v. 3.23.09 Flmsg v. 2.0.17
Flamp v. 2.1.03 Flwrap v. 1.3.4

Meet on 146.985 and QSY to 144.950.

Mode is BPSK125. Other modes possible.

Sign up with N0UC n0uc@comcast.net for net bulletins & help.

Did you know ...

The SEMARC webpage contains links to **many** websites that are helpful to new hams and experienced ones.

Visit www.semarc.org/P10_UL.htm.

Stillwater Amateur Radio Association

SARA has graciously welcomed SEMARC members to attend their events, and more...

[Round Robin Ragchew on the SARA repeater](#)

Two Meter Tuesday (TMT) Round Robin Ragchew on the SARA repeater

Tuesday's - 7:00 pm - 8:00 pm

[Social/Special Meetings](#)

Thursday Evenings: Social and informal "Eyeball QSO" sessions from 6PM to 8PM, usually at the Stillwater Public Library.

See radiohm.org for weekly updates

VE Session Report

We are now at our new location

[St Luke Lutheran Church, 7000 Hinton Ave S, Cottage Grove](#)

See you there,

Dan.

Contact me @ 651-247-2164 or wd0gup@hotmail.com with any questions.

Dan Franz, WD0GUP

VE News

We will be normalizing VE operations as it relates to COVID. For the time being I will still preregister candidates and VE's. That means no walk-ins but we also will not have head count restrictions. I also have incorporated a self-survey and ask anyone that answers yes to any of the questions to call me.

Thanks to all VE's that helped us get through this tough COVID time.

Dan Franz, WD0GUP

Any questions call the club hot line at 651-769-0358 or email wd0gup@hotmail.com.

Planning Calendar

May 14 th (T) Board Meeting	June 11 th (T) Board Meeting
May 18 th (S) VE Test & B'fast	June 15 th (S) VE Test & B'fast
May 28 th (T) Club Meeting	June 25 th (T) Club Meeting

SEMARC VE Sessions

VE exam sessions are held **every 3rd Saturday** (except December). The next VE session is on **May 18th**. Exams are held at 9:00 am at [St Luke Lutheran Church Cottage Grove](#). Call 651-769-0358 for information, to register or to arrange for special needs. Information is posted on the webpages also.

Wednesday: SEMARC Net(s)

May 1st, 8th, 15th, 22nd, 29th

7:00 PM, Weekly CW net on 28.110

8:00 PM, Weekly 2-meter net on the 147.180 repeater (PL 74.4 south and 100.0 north).

Winlink net, following the 2-meter net (above).

Winlink Training Net

On April 6, 2022 we began holding a Winlink training net after our regular Wednesday two meter activity net for persons interested in using the Winlink programs and for ARES members to improve their proficiency in using the tool during emergency communication events. This net will start after completion of the activity and last about an hour.

The net will start on the 147.18 repeater to collect a roster and setup the instructions for the training and practice. We will then move to the MN ARES digital frequency to do the hands on portion of the net. We will be concentrating on point to point communication. Since during most communication emergencies the loss of the internet is very likely the need for P2P is high. During a communications emergency it is all hands on deck so you don't need to be an ARES member to help out. It is easier to learn now than during the emergency. We will be learning how to move traffic via P2P to a local destination or to a gateway station that has internet connectivity. The use of forms and message content is for a different training segment for another time not this net.

Before net time make yourself acquainted with winlink and winlink express. Take time to view the youtube links and install the needed software. We will be using VARA FM during the hands on portion of the nets. The links are provided below. There will be a number of questions that will pop up and we will work through those as the nets go along. As these are training nets hopefully your questions will get answers. As you have heard many times practice make perfection or as us older fellows say "practice helps us remember". If you have questions on ARES send to John Regan KAOHYR jeregan@gmail.com, about the net n0uc@comcast.net

CU on the nets, 73

Dick NOUC

★ In addition to the afore mentioned Winlink "active" training nets, there will be "passive" practice nets for participants to continue to learn how to configure their stations, and to practice their skills using the Winlink Express software. You simply send a Winlink message to net control to verify that your system is set up correctly and working. If there is not an active training net after the SEMARC Activity Net, you can assume the passive net will be running. The details needed to check into the passive net are here:

<https://paulkanikula.wixsite.com/home/winlink-net>

Any comments or questions about the passive nets can be sent to KF9CP at paulkanikula@gmail.com or you can put it out on the groups.io for the benefit of everyone.

Membership Meetings

Are held in Cottage Grove

[St Luke Lutheran Church, 7000 Hinton Ave S, Cottage Grove](#)

We meet on the LAST Tuesday of the month at 7:00 p.m. **Except June & December**

Watch for updates and more information in the Sunday Bulletin email message.

New members, especially those who passed one of our VE exam sessions, are encouraged to attend so that we can meet you in person.

We hope to see you there.

(As is our tradition anyone with a birthday in the meeting month is asked to bring cookies or other snack to share.)

New Club Members

New Club members can:

Keep in touch, post amateur related articles, sell amateur related items or asked for help and/or questions of other members.

This is a private network for our member's only and does not allow incoming or outgoing traffic to other networks.

Members will be getting an email requesting them to join and they can opt in or out. This will occur in the first week of November

Dick NØUC

Club Apparel

You have seen some members wearing SEMARC caps, shirts and jackets. If you would like to order one for yourself, visit our website at [ApparelOrderForm.pdf \(semarc.org\)](#), then contact our order coordinator Dan Franz at wd0gup@hotmail.com. Dan will accept your order and payment, then order the item(s) from our vendor Advanced Sportswear in Newport.

SEMARC has wearables identifying members with their name and call sign. We offer a cap, shirts and a jacket. If you would like to order one for yourself, visit our website for the [Order Form](#), then contact our coordinator Dan Franz at wd0gup@hotmail.com. Dan will accept your order and payment, then order the item(s) from our vendor: Advanced Sportswear in Newport.

73, NA0L

Chuck Hanson

SEMARC Operating Events

SEMARC hosts many activities during the year: on-air nets (CW, FM, Digital); meetings, both in person and virtual; special virtual meetings like Fireside Chats; volunteer exams, and, **OPERATING EVENTS!**

Operating events provide chances for club members to meet, practice their operating skills and have fun. Our operating events are also good opportunities for members without stations or who are new to the hobby, to gain lots of experience in a fun atmosphere. In each of the events described below, a club lead is identified, so that everyone knows who to contact to offer their help or find out how to participate.

[Check here for future events](#)

WCARES Activities This Year

Our ARES Unit participates in SEMARC's weekly 8:00 p.m. Wednesday evening 2-meter nets on the 147.180 repeater with a PL tone of 74.4 in Newport and PL tone 100.0 in Forest Lake. We also use this pair of repeaters for our monthly 2-meter net on the third Wednesday of the month at 7:00 p.m.

Anyone interested in joining Washington County ARES should contact John Regan KA0HYR jeregan3@gmail.com.

John Regan KA0HYR
Emergency Coordinator
Washington County ARES

Washington County ARES

Welcome to the Washington County ARES website (ARES Unit 163MN01)... Face-to-face ARES activities are in suspension until further notice due to Covid-19.... Check the two ARES Digital Nets in Minnesota and participate; Info under the **Events tab** gives details... 60 Meter Interoperability exercises scheduled = see events tab and participate with us!!....The 147.180 Repeater is running at the Newport site (PL 74.4) and Forest Lake site(PL 100); we use this repeater for drills and activations. This covers the entire county and is in our WashCoARES Emergency Communications Plan... Support our Amateur Radio Clubs through your participation.

The ARRL, upon the recommendations of Minnesota Section Manager Bill Mitchell AE0EE and Minnesota Section Emergency Coordinator Benton Jackson K0BHJ, has appointed John Regan KA0HYR as the new Emergency Coordinator (EC) for Washington County. Joe will be working with former Washington County EC John Regan KA0HYR for the transition. A meeting of Washington County ARES will be scheduled for the Spring.

Anyone interested in joining Washington County ARES should contact John Regan KA0HYR jeregan3@gmail.com

METRO SKYWARN

Metro Skywarn Weekly Radio Check-In

Wednesdays 8:30pm – 8:45pm

Join Metro Skywarn for our weekly amateur radio check-in at **8:30 p.m. every Wednesday** during our active Net Control Station rotation schedule (thru October 16th).

These check-ins will be done on the **146.700- PL 127.3** WC0HC Downtown Minneapolis repeater.

This is your opportunity to **test your equipment** out outside of an active severe weather net. You can also ask the net control operators questions and just say hello!

Rail-Based Tabletop Exercise

Cottage Grove Table Top Exercise, April 10, 2024

Amateur radio participants:

- Dick Roberts N0UC – Winlink Station/operator/communicator in the EOC
- Paul Kanikula KF9CP – Winlink Station/operator/communicator at the derailment command post
- Dave Larson KE0HAL – Shadow/observer/communicator of the Incident Commander
- Dave Schultz KB0SED – Observer/communicator in the EOC
- Chuck Hanson NA0L – Observer/communicator at the Incident Command Post
- Brian McInerney N0BM – Network Control Station in the EOC
- Derreck Lisle KF0OOI – Observer/communicator assisting NCS

This is real - A train derailment occurred in Newport, MN on July 19, 1960. News reports in 1960 detailed that the 4-engine eastbound Hiawatha train, traveling an estimated 77 mph collided with a truck near the (Belden Blvd) 80th street interchange. Eleven of the 15 cars derailed. Seventy-seven people (passengers) were injured with 10 requiring hospitalization. ... per the Fergus Falls Daily Journal and from a member of the Milwaukee Road Yahoo Group.

The 2024 derailment exercise, placed at the same intersection, detailed a collision with a tour bus resulted with injuries and a fire. The exercise included over 20 agencies and more than 120 participants. Our role, as observers and backup communications, included a new dimension: transmitting a document using handheld radios. This was new to the Exercise Directors from S.T.A.R.S (Bloomington based: Safety Training and Response Strategies). In advance of the exercise, Dick and Paul worked a couple sessions to assure success using VARA FM P2P. The whole thing seems like a blend of POTA and a field day exercise. But this kind of had a look of "Proof of Concept." The Exercise Director emailed a document to Dick, at the EOC, where he downloaded the document to his WinLink station, then transmitted (144.950) the message/attachment to Paul's Winlink station, on battery power, at the Incident Command Center. Note: VARA FM P2P on 144.950

UHF for voice (All participants will bring/use UHF handheld radio's)

- 1. Main - channel one - NSC 442.300/203.5 simplex
- 2. TAC 1 - channel two - staff to staff 443.000/203.5 simplex

VHF for data

- 1. Digital - Winlink 144.950 using VARA FM P2P

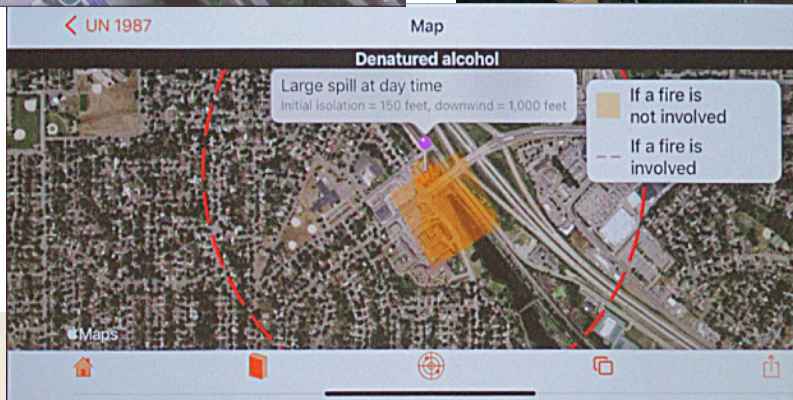

Rail-Based Tabletop Exercise

Administrative Remarks

- The exercise is conducted in a no-fault learning environment wherein capabilities, plans, systems, and processes will be evaluated.
- The exercise scenario is plausible, and events occur as they are presented.
- To increase the realism, the EOC and Operations Section will be separated into different rooms approximately 1 hour into the exercise.
- EOC will be established in Conference Room A.
- Operations Section will be in Conference Room B.

SAFETY T... E RESPONSE STRATEGIES. L

Building Block Approach

- Railroad Specific Training
- Previous Tabletop Exercises
- Current Tabletop Exercise
 - Mass Casualty (6 hospitals participating remotely)
 - Hazmat
 - Functional EOC
 - Mock Press Briefing

SAFETY TRAINING AND RESPONSE STRATEGIES, LLC

Objectives

- First responders shall direct and implement initial incident on-site management utilizing existing plans and SOPs within the first 1 hour of response.
- Validate the Incident Command's ability to assure the health and safety of the public, and train crew and response personnel at all times of the response.
- Responders will demonstrate the ability to manage necessary resources during the initial incident response.
- Participants will develop an Incident Action Plan in response to a train derailment according to the local response plan.
- Conduct response operations to control/stop the source of the spill, contain, recover, or exclude released material, and minimize response-related environmental impacts.
- Disseminate crisis and emergency risk communication information to media, public, partners, and stakeholders within 3 hours of the incident.
- Provide triage and transport via Emergency Medical Services and related operations within the first hour of the incident.

SAFETY TRAINING AND RESPONSE STRATEGIES, LLC
